** : chocolate must be Dove.

Domestic violence is not rare, and it's not always visible.

In Texas, 1 in 3 will experience domestic violence in their lifetime, affecting both women and men. That's why something as simple as an **I See You Box** matters more than it may seem.

Each box acknowledges courage, hope, and encourages healthy healing. But it is more than a box; it is a tool for life. Every item inside is carefully chosen to do more than comfort in the moment. The hope is it helps begin the deeper work of healing the mind and rebuilding identity after verbal, emotional, and psychological abuse. This abuse can distort how one sees their identity and worth. The I See You Box offers simple, steady tools to rebuild confidence, reshape thinking, and restore a truthful sense of self.

What may look simple on the outside is actually powerful on the inside: a starting place, a steady reminder, and a guide for the journey ahead.

PARTNER WITH US TO PROVIDE HOPE AND HEALING BECAUSE EVERY SURVIVOR DESERVES TO BE SEEN.
